This is in response to applicant's "Petition and Fee to Correct Inventorship Under 37 CFR 1.48(a)" filed 05 July 2002, which is being treated as a petition under 37 CFR 1.497(d).

BACKGROUND

On 25 August 2000, applicant filed international application PCT/US00/23322, which claimed priority of an earlier United States application filed 27 August 1999. A Demand for international preliminary examination, in which the United States was elected, was filed prior to the expiration of nineteen months from the priority date. Accordingly, the thirty-month period for paying the basic national fee in the United States expired at midnight on 27 February 2002.

On 26 February 2002, applicant filed national stage papers in the United States Designated/Elected Office (DO/EO/US). The submission was accompanied by, *inter alia*, the basic national fee required by 35 U.S.C. 371(c)(1).

On 20 May 2002, the DO/EO/US mailed a Notification of Missing Requirements Under 35 U.S.C. 371 (Form PCT/DO/EO/905), which indicated that an oath or declaration in compliance with 37 CFR 1.497 must be filed.

On 05 July 2002, applicant filed the present petition under 37 CFR 1.497(d) along with an executed declaration.

DISCUSSION

37 CFR 1.497(d) (effective 07 November 2000) states,

If the oath or declaration filed pursuant to 35 U.S.C. 371(c)(4) and this section names an inventive entity different from the inventive entity set forth in the international application, the oath or declaration must be accompanied by: (1) a statement from each person being added as an inventor and from each person being deleted as an inventor that any error in inventorship in the international application occurred without deceptive intention on his or her part; (2) the processing fee set forth in § 1.17(i); and (3) if an assignment has been executed by any of the original named inventors, the written consent of the assignee (see § 3.73(b) of this chapter).

With regard to item (1) above, applicant has provided the requisite statement.

With regard to item (2) above, applicant has provided the requisite processing fee.

With regard to item (3) above, in situations where an assignee consents to a correction of inventorship, ownership of the application must be established. See MPEP 324. Under 37 CFR 3.73(b), ownership is established by documentary evidence of a chain of title from the original owner to the assignee. In the present case, the petition is accompanied by an "Assignee Consent to Petition under 37 CFR 1.48(a) to Correct Inventorship" which states that The Procter & Gamble Company is the assignee of the present invention. The consent statement is signed by a person who states that he is authorized to act on behalf of the assignee. Although the consent statement states that the assignment is being recorded simultaneously with the filing of the present petition, applicant has provided neither a copy of the assignment agreement nor a statement specifying by reel and frame where the assignment has been recorded in the USPTO. See 37 CFR 3.73(b)(1).

CONCLUSION

For the reasons above, the petition under 37 CFR 1.497(d) is **DISMISSED** without prejudice.

If reconsideration on the merits of the petition is desired, a proper response must be filed within TWO (2) MONTHS from the mail date of this decision. Extensions of time are available under 37 CFR 1.136(a). Any reconsideration request should include a cover letter entitled "Renewed Petition Under 37 CFR 1.497(d)".
